EDUCATION AND MONEY

An ancient writer tells us that, on one occasion, Aristotle was asked how much educated men were superior to those uneducated. "As much" the Greek Philosopher replied, "as the living are superior to the dead."

This somewhat grim comparison might well be provocative of serious thought on the part of Parents, Teachers, and Students. For it is true that the educated man or woman possesses a fortune - not necessarily in money- -which "the wreck of matter and the crash of worlds" cannot take away.

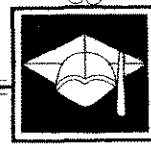

Come in and see us.
