ADMINISTRATION

FACILITIES

The Academy can accommodate approximately two hundred boarding students and one hundred day students. McComb Hall houses classrooms, administrative offices, library, containing over 5000 volumes, and a chapel-auditorium. The Science Building houses all the science classrooms and laboratories. This boasts the most up-to-date teaching equipment available. Guthrie Hall houses three staff members and seventy-five boys. This dormitory was one of the original buildings built on the present site in 1901. Extensive renovation was done to this building in 1958. Redus Hall, constructed in 1925, houses two faculty families and thirty-six boys. Gage Hall, erected in 1948, has quarters for three staff members and fifty-five boys. The girls are housed in a new home across from the school next to the President's home. A faculty family and approximately twenty girls can be accommodated here. Kennedy Gymnasium affords facilities for basketball, volleyball, gymnastics, ping-pong, and billiards. It also provides a recreation area with soda fountain, canteen and dressing rooms. The lobby of the gym serves as a visitation lounge for off-campus visitors. Jenkins infirmary provides ample medical facilities for the Academy, including resident nurse's quarters, examination room, isolation rooms and general ward.

The Campus proper contains approximately twenty acres, but the entire Academy property amounts to one hundred and sixty-seven acres. This acreage is mostly woodland and contains one small lake.

ACADEMIC PROGRAM

The curriculum at Chamberlain-Hunt is essentially college preparatory with sixteen units in the areas of English, foreign language, science, mathematics, social studies or business education required for graduation, along with two years of Bible. Subjects offered include those courses required by the major colleges of the South. Instructors are carefully chosen for their professional qualifications and desire and ability to work with young people. Chamberlain-Hunt is a member of the Southern Association of Colleges and Schools, the Mid-South Association of Independent Schools and the Mississippi Association of Private Schools. Small classes, individualized instruction, and a close check on the progress of each student characterize the academic program.

ACTIVITIES

1977

RELIGIOUS EMPHASIS WEEK MARCH 27-30

Reverend Wardlaw and Reverend Daniels enjoy private conversation before chapel services.

The Reverend "Gee" Wardlaw, cum magna laude graduate of Davidson College and pastor of the First Presbyterian Church, Natchez, communicated with the students in a distinctive way. His "Rindecilla" approach got attention and his timely application of the Bible to the lives of boys and girls was an inspiration.

Opening with Sunday night service at the Presbyterian Church, Reverend Wardlaw spoke each morning at 10 a. m. to the Junior and Senior highs. Special music for the service was presented by the Senior Choir, under the direction of Mrs. Joan Beesley. The Junior Choir brought music for the first service on Monday morning. Reverend Wardlaw conducted vesper services at 5 p. m. in the afternoon for boarding students. Reverend Wardlaw had the opportunity to meet and counsel with many of the students personally, and the messages were very timely for spiritual needs and challenges that face young people.

The girls' basketball team worked hard and diligently throughout the year. The season ended with two high points-beating Parkland and Thomas Jefferson. The team will lose two seniors, but hopes to make up for the loss next year. Frankie Weir, a senior, was picked to play in the South AA All-Star game and we were very proud of her. We hope to improve our winning record within the coming year.

THE YEARBOOK STAFF AT WORK

Mrs. DeWitt studies pages ready to be sent in for one of the four deadlines.

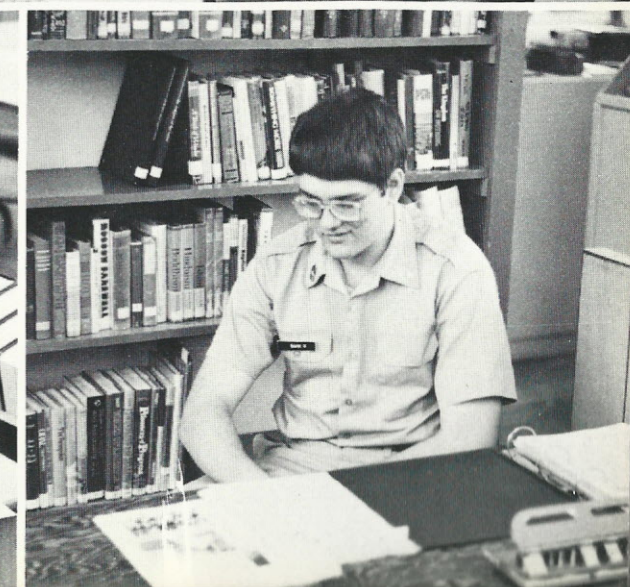

George Donald helps David prepare the football section of the annual.

A good yearbook staff functions like a winning football team. The editor, like a quarterback, makes the decisions and works with the staff members to execute assignments. The conscientious staff members know their job and make a sincere effort to meet all deadlines; so the book can be printed without delay. Of course, when there's a situation that calls for expert advice, the adviser, like a coach, should be ready to give assistance.

The staff that produces a good book reaps the same benefits a winning football team does - a good student following this year and the assurance that next year there will be a great deal of interest in the book.

Connie types and Mark writes.

Senior Breakfast for Boarding Seniors and Faculty

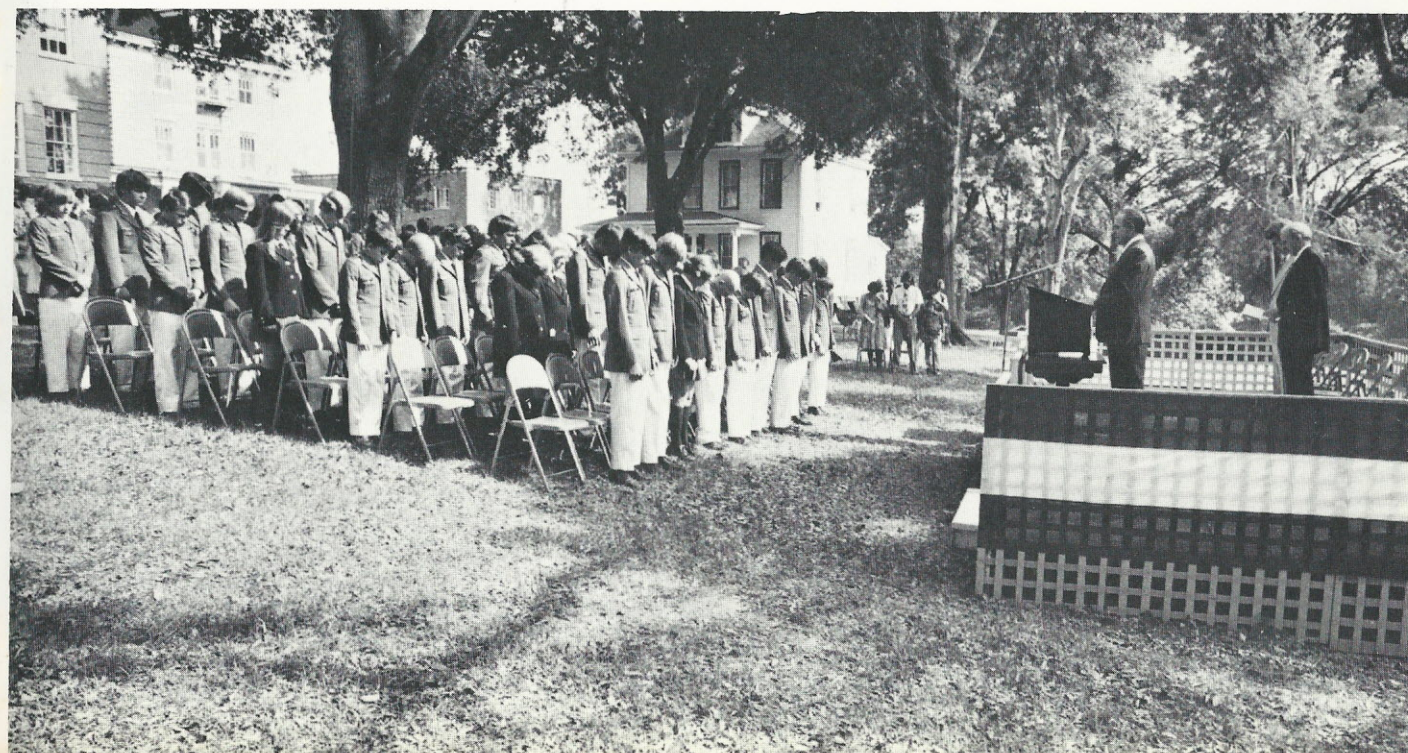

Doomsday! The Day of Senior Speeches

SENIOR DAY FRIDAY, MAY 6, 1977

After twelve years of waiting, the last day of high school finally came for the Seniors. The day started with a breakfast in the school cafeteria honoring the boarding Seniors and the Faculty. All during the day final preparations were made for the last night of Senior Speeches. Tradition reigned as the Seniors autographed each other's shirts. This was done with much sadness as the Seniors finished their last day at CHA. After the final speeches were given, the day was ended with a reception in the cafeteria honoring the Senior Class of 1977.

The new flag was raised the same evening and was flown during the Final Retreat. It will fly on campus during the next school year, 1977-1978.

SENIORS' FAREWELL

Friends, Faculty, and Students:

Today marks the beginning of a new life. That is why today can only be described as a joyous, sad experience. Joyous because we have accomplished a goal, and sad because we are now thrust out into the world. For twelve years we have been striving to achieve this goal, and today we have finally accomplished this feat. What most of us haven't realized is that while we were striving for this graduation day, we accomplished many other important things. Our school days have given us friends, happiness, maturity, and wisdom along with disappointments, failures, and hard times.

For some of us it was six years ago that we first stepped on this campus, and for six years CHA has played a main part in our lives. We have learned here, loved here, and grown up here, but mainly, we have become united as a class. Now the time has come for us to leave and go our separate ways. In later years we will find that we can look back on our high school days as our most carefree and enlightening ones. Nothing can ever replace our time here.

We are the future - the hope of tomorrow - and CHA has done its part in preparing us for that tomorrow. How we will react in the future will be a reflection on our high school days. We are responsible for the world in which we wish to live. It will be a world born from our visions and dreams, and it will contain a single virtue which enables us to overcome the ups and downs of life. This virtue is called HOPE.

With all our hopes, dreams and experiences we will form tomorrow's world. With this day our education has not ended, but it has just begun, for the world holds many discoveries for us. What we make of this world will be but reflections of the shadows of our lives at CHA.

What we leave behind us today signifies the hard work and achievements of today's youth. We have given some of the most important years of our lives to this school and long after we are gone, traces of us will still be seen here. Our past will not be erased by time. Time will only make our memories more precious. Our years here have all passed taking only time and giving only memories of all that we had to give.
