Graduation, 1988

DR. W. MARVIN RANDOLPH
PRESIDENT

Dear Seniors:

To you it seems that your graduation would never come. For the faculty and staff we cannot imagine that it has come so swiftly. It seems only yesterday that the school year began with all its excitement and promise....and now it is over.

You will hear it many times but I would like to add my voice to the chorus. It is not "over" for you, it is rather just beginning. The future is yours to control, both for yourself and for all of society. The decisions you make and the directions you establish will chart the course of our world for the next generation.

I hope and pray that we have given you the proper tools to make the right choices and the right decisions. Only with the full use of all the tools we have helped to give you, can you really make the world the kind of place it should be. Set for yourself the goal of building on the skills you have learned at CHA, so that your future will be bright both for you and all of society.

The administration, faculty and staff are all proud of you and look with envy on your future. It can be anything you want to make it. Make it a better world.

Sincerely yours,
W. Marvin Randolph

HUNTSVILLE TRIP

Mrs. Rigby's eighth grade earth science class visited The Space and Rocket Center, Tranquility Base, and Huntsville, Alabama on September 17, 18, and 19, 1987. They visited museums, saw movies in the space dome, and saw where the rockets were tested. It was a very exciting and educational trip.

FRENCH TRIP

The French II classes spent a memorable weekend in Quebec City the end of April.

The trip was a very exciting one for everybody. George our tour guide, was very understanding even when the boys just couldn't make it on time.

We toured all of Quebec City. We saw churches, the Parliament, the wall of Quebec, just to name a few. We really enjoyed seeing the many little cafes and the street artists.

We would love to go back, but it was nice to get back to P.G.
